

Important: On HW 4 grading.

- Double check problem 5, there has been different values of E_{x_i} , E_{y_i} , $\sum x_i^2$, $E_{j_i^2}$, $\sum x_i j_i$ in the question & in the solution
→ If you missed some points on that question & think you did everything well, scan your answer of "question 5" and email me. I'll update your grade.

- Quiz II on October 17th. (One week from today)
- Sample quiz + solution + note sheet were posted in "Exam materials" on the page.

Quiz II Coverages } - Chapter 4 & line/surface
fitting

} - Chapter 5 & Discrete random
variables.

(until the end of Poisson
Distribution)

- Hw 6 will be posted after class.
 - Questions related to Ch 5 → Discrete r.v.
(They are good practice for quiz II).
 - Due Thursday, Oct 17th in-class.
(The same day as quiz II)
